Assignment : Desktop vs Mobile Apps

1. On your class portfolio website, create a new page called "Desktop vs Mobile Apps"

2. This new page will contain the following information:
   - Identify and describe 10 ways in which mobile sites should be different from desktop web sites
   - Explain the advantages and disadvantages of desktop apps vs mobile apps for users
   - Explain the advantages and disadvantages of desktop apps vs mobile apps for developers

3. All information must be visible on your website. You may use information from other websites, but may not link to them.

4. You will be graded only on the information visible on your "Desktop vs Mobile Apps" page.

5. All information must be in your own words. Remember what you learned about Copyright laws. If you plagiarize information from other websites or sources you will receive a 0 – no excuses, no exceptions. If you use internet images, make sure you site your sources.
